

INGENIOUS BUSINESS COLLABORATION

Consult // Design // Install // Support

WELCOME TO VISAVVI

We are leaders in audio visual, communication and collaboration and have more heritage and more experience than anyone else in the industry. The strength of Visavvi comes from the trusted, long-term relationships that we build with our clients and technology partners. It's our proven ability to shape technology in a way that drives business growth that marks us out from the rest.

Visavvi harnesses technology inventively so that businesses and organisations can collaborate smoothly and seamlessly. They become more agile, employees become more engaged and teams work together like never before to inspire ideas that outstrip expectations. It's what we call Ingenious Business Collaboration.

AV IN THE WORKPLACE

MEETING ROOMS

Visavvi is relied on by leading UK and global brands to design, install and support meeting and collaboration rooms in ways that drive business collaboration and hybrid working. Technically, we have deep knowledge of AV equipment, integrated AV and IT systems, and communication and collaboration technology. We apply a full range of skills, from consultancy and design to installation, training and maintenance.

From the boardroom to the huddle, you'll benefit from integrated, business-critical meeting environments that are agile, reliable, flexible and productive. We have the successful client relationships, and industry awards, to prove it.

VIDEO CONFERENCING AND COLLABORATION

Visavvi have a reputation for delivering tailored, agile and reliable video conferencing and collaboration systems. These solutions help our clients prosper in a Hybrid world, They are solutions that help our clients prosper in a Hybrid world, across offices, environments and international borders. Clients come to us with a variety of business and operational challenges. Following consultation, we answer those

challenges directly. Then we can go to work, blending technologies from multiple partners to create immersive, collaborative and highly intuitive environments that become business critical for our clients.

LEARNING SPACES

More and more institutions are turning to Visavvi to bring their learning environments to life. We specialise in creating stimulating lecture theatres and learning spaces that promote new

and highly collaborative ways of hybrid and traditional learning. World-renowned academic centres of excellence trust Visavvi to deliver where it counts. Our innovative approach frees students and academics from traditional constraints. It allows remote and hybrid teaching and learning, high levels of interactive participation, and easy integration of personal devices, mirroring modern ways of working and helping institutions extend their reach.

LARGE DISPLAY SCREEN ENVIRONMENTS

Environments with vast screens are always a magnet for attention and have the capacity to grab the attention and wow viewers. Following detailed consultation, we use our proven expertise to deliver exciting solutions that impress and inspire. As industry leaders, we have integrated large-screen technology into the lecture theatres of leading institutions, boardrooms of globally renowned brands, and the inspiring reception areas of corporate HQs.

NETWORKED AV ENVIRONMENTS

Visavvi pioneered early adoption of networked AV, the transfer of audio, video and interactive content across IT networks. We'll help you to harness the full capabilities of your IP network – ensuring information flows freely and in real time. We drive business agility by moving your content to where and when you need it, giving you the ability to monitor and manage. From sharing content wirelessly the moment you walk into a room, to remotely starting video meetings at the touch of a button, we'll ensure your system delivers maximum benefit, while safeguarding the stability of your IT network.

“
VISAVVI HAVE BEEN A
TRUSTED AND RELIABLE
PARTNER FOR A VERY
LONG TIME. WE DON'T WORK
WITH AN ORGANISATION
FOR THIS LENGTH OF TIME
WITHOUT THEM HAVING A
DEEP UNDERSTANDING OF
WHAT'S IMPORTANT TO US.
”

Tony Steedman – Head of W12 Conference

GLOBAL REACH

Visavvi is trusted globally. As leaders in audio visual, communication and collaboration, our skill base is comprehensive and deep. We blend extensive technical expertise with proven people skills to build strong and trusted relationships with our clients. With our global PSNI partners across a multi national network of offices, we free our clients from the localised and fragmented delivery of workplace technology. Underpinned by high adoption rates and a rapid return on investment, together we deliver strategic standardisation of workplace technology. As a single global source for workplace technology, unified communications and collaboration solutions, we are passionate about delivering true innovation and tailored solutions to our global clients.
